

## Power of the Dream Ventures, Inc. CEO Viktor Rozsnyay interviewed on CEOcast.com

**BUDAPEST, HUNGARY, March 28, 2008** -- Power of the Dream Ventures (PDV), one of Hungary's premier technology acquisition companies, today announced that the Company's Chief Executive Officer, Viktor Rozsnyay, was interviewed on CEOcast.com by Michael Wachs.

The interview focused on the Company's background, products, business model, opportunities and direction.

"I was delighted to have been asked to do the interview. Contrarily to some other opportunities we have been offered, this was not a paid promotion. This interview was our first real exposure to the US investor community since trading began in our stock. I would like to thank CEOcast for the opportunity." said Viktor Rozsnyay.

The interview can be accessed on CEOcast's website, following registration at <http://www.ceocast.com/>

### **About CEOcast.com**

CEOcast produces original and syndicated streaming broadcast interviews of chief executive officers at public and private news-making companies and distributes its programming to millions of online investors at over 700 financial web sites as well as to more than 20,000 portfolio managers, buy-side analysts and traders at more than 3,300 North American institutions. Content is also disseminated to over 7,000 investment research professionals representing over 425 institutions.

### **About PDV**

Power of the Dream Ventures, Inc. is a premier holding company focused on technology acquisition and development enabling the delivery of revolutionary concepts and ready to market products to the international market place. We develop, acquire, license, or co-develop technologies that originate exclusively in Hungary that are in prototype stage based on existing patents; in prototype stage prior to patenting; existing products that require expansion capital to commercialize; emerging science and high-technology research projects that require help in patenting, developing the product and marketing, University spin-off technologies and ideas from the very early stages on that represent "disruptive technologies."
