

Power of the Dream Ventures Corporate Actions

BUDAPEST, Hungary, April 9, 2012 – Power of the Dream Ventures, Inc. (OTCBB: PWRV), Hungary's premier technology acquisition and development company, today announced several steps take to further strengthen shareholder value in anticipation of producing the company's first revenue in 2012.

On April 5, 2012 the Company filed a Preliminary Information statement announcing several Corporate Action items, including:

- the reduction of the authorized shares of common stock from 250,000,000 to 50,000,000 without affecting the issued and outstanding shares of the Company's common stocks
- an increase in the par value of the Company's common stock and preferred stock from \$.0001 per share to \$.001 per share
- and the creation of a class of Series B Preferred stock. Each Series B Preferred share shall have two votes and shall vote together with the common shares of the Company, each share of Series B Preferred shall not be convertible; each share of Series B Preferred shall be deemed the equivalent of two (2) shares of the Company's common stock for the purpose of calculating the participation in all cash distributions or stock dividends

These Corporate Actions require a mandatory return of all certificates to the Company's Transfer agent for processing and re-issuance.

"With these corporate actions we are looking to further strengthen our share count position. I believe that the reduction of our issued and outstanding to 50 million shares shows that we are not looking to dilute our common base. The creation of the Series B Preferred is in anticipation of our near term fund raising goal, in which new, long term investors, will receive these shares to further reduce our common dilution. I anticipate that 2012 will finally produce our first, significant revenue, revenue we will use to invest in / acquire additional technologies," Mr. Rozsnyay added.

About PDV

Power of the Dream Ventures, Inc. is a leading technology holding company. We identify and harness the unique technological prowess of Hungary's high-tech industry, turning promising ideas and ready to market products/technologies into global industry leaders. We focus on developing, acquiring, licensing, or co-developing technologies that originate exclusively in Hungary that are in prototype stage based on existing patents; in prototype stage prior to patenting; existing products that require expansion capital to commercialize; emerging science and high-technology research projects that require help in patenting, developing the product and marketing, University spin-off technologies, and ideas from the very early stage that represent "disruptive technologies."
