NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 - GENERAL INFORMATION

Power of the Dream Ventures, Inc., f/k/a “Tia V, Inc.” (“PDV” or the “Company”) was incorporated in Delaware on August 17, 2006, with the objective to acquire, or merge with, an operating business.

Reverse merger

PDV entered into and consummated a Securities Exchange Agreement (“Exchange Agreement”) on April 10, 2007. Under the terms of the Exchange Agreement, PDV acquired all the outstanding equity interests of Vidatech, Kft. (also known as Vidatech Technological Research and Development LLC) a limited liability company formed under the laws of the Republic of Hungary, (“Vidatech”) in exchange for 33,300,000 shares of PDV’s common stock, and Vidatech thereby became a wholly-owned Hungarian subsidiary of PDV. PDV is governed by the law of the State of Delaware, and its wholly-owned subsidiary, Vidatech, is governed by the law of the Republic of Hungary. PDV and Vidatech are herein collectively referred to as the “Company.”

Following the acquisition the former stockholders of Vidatech owned a majority of the issued and outstanding common stock of PDV and the management of Vidatech controlled the Board of Directors of PDV and its wholly-owned Hungarian subsidiary Vidatech. Therefore the acquisition has been accounted for as a reverse merger (the “Reverse Merger”) with Vidatech as the accounting acquirer of PDV. The accompanying condensed consolidated financial statements of the Company reflect the historical results of Vidatech, and the condensed consolidated results of operations of PDV subsequent to the acquisition date. In connection with the Exchange Agreement, PDV adopted the fiscal year end of Vidatech as December 31.

All reference to shares and per share amounts in the accompanying condensed consolidated financial statements have been restated to reflect the aforementioned shares exchange.

Business

The Company is engaged in the acquisition, development, licensing and commercialization of and the investment in, directly or through business acquisitions, technologies developed in Hungary. In furtherance of its business, the Company provides research and development services to the companies, inventors from whom it acquires technologies or participation interests in technologies. A goal of the Company is to support research and development activities and to sell the products of inventions to the technological market

From inception through June 30, 2010, the Company primarily focused on the raising of capital. As of June 30, 2010, the Company manages eight technologies, RiverPower, the Kalmar inventions (FireSAFE fire-proofing liquid; technology for utilizing communal waste as a concrete additive; technology for repairing potholes with the use of recycled plastics; technology for neutralizing red mud; biodegradable deicing solution and PVC shielded electric cable recycling technology), and an equity interest in ‘in4 Kft’, a company formed to develop next generation internet based semantic search and content organizer applications. All of these technologies are still in the development stage (see Note 4).

NOTE 1 - GENERAL INFORMATION - Continued

As of June 30, 2010, the Company has only realized limited revenues from the now discontinued TothTelescope project and has not realized any revenues from the other inventions. As a result, the accompanying consolidated financial statements have been presented on a development stage basis.

FireSAFE

On August 20, 2008 the Company licensed its FireSAFE technology to a group of Hungarian investors for a license acquisition fee of HUF 20,000,000 (approximately \$120,000), where half of the license fee was received by the Company in August of 2008, and the other half due once independent testing and verification of the technology completed, but no later than June 30, 2009. The received amount was recorded as a liability in accordance with Staff Accounting Bulletin No. 104, "Revenue Recognition" ("SAB 104"), which superseded Staff Accounting Bulletin No. 101, "Revenue Recognition in Financial Statements" ("SAB 101"). A new company called FireLESS Ltd. was established and given commercialization license. The Company received 30% equity in FireLESS Ltd in addition to the one time license acquisition fee which was recorded as research and development expense in accordance with with ASC 730-10-25 "Accounting for Research and Development Costs (See also Note 4).

The new company will focus on acquiring the appropriate licenses and certificates to internationally market FireSAFE and will work with local and international fire agencies to test and establish usability baselines for FireSAFE. As of June 30, 2010 we are completing data analysis of independent testing completed on FireSafe. Results of this analysis, expected to be completed in 2010, will determine the next course of action.

To further these goals, by protecting the intellectual property FireSAFE represents, on October 20, 2008 the Company filed a PCT patent application in addition to the already filed Hungarian application to protect FireSAFE internationally.

FireSAFE is an environmentally friendly, biodegradable liquid designed to prevent, and if necessary extinguish natural fires that are exceedingly hard, or impossible to contain with water or other fire-fighting solutions. This category includes forest, bush and other natural fires. FireSAFE reaches the heart of the fire, coating all surfaces with a crystalline layer that hardens when exposed to heat. The layer thus formed is capable of withstanding heat as high as 1,100 degrees centigrade, enough to stop the most fearsome forest fires. Following use (containment of the fire) the biodegradable active ingredient will decompose in approximately four months. FireSAFE can also be used as a preventive solution, both in the wild and in treating lumber. During fire season those areas that are the most likely to be burnt can be sprayed with the solution as a preventive measure. Lumber used in construction can also be treated with FireSAFE to increase its fire resistance factor. FireSAFE can be manufactured anywhere on the planet with ease as all its ingredients are widely and cheaply available.

TothTelescope

On July 15, 2009 our exclusive distributor agreement expired with Attila Toth, Inventor of the TothTelescope. After extensive review of the technology, the available market and hurdles associated with manufacturing and distributing the TothTelescope, we have elected not to renew the distribution agreement and discontinue the project. Since inception only 10 telescopes were sold. Overall invested capital was returned from commissions earned on these sales.

NOTE 1 - GENERAL INFORMATION (Continued)

Yorkville SEDA

On October 8, 2008, Power of the Dream Ventures, Inc. (the “Company”) entered into a Standby Equity Distribution Agreement (the “Standby Equity Distribution Agreement”) with YA Global Investments, L.P. (the “Investor”). Pursuant to the terms of the Standby Equity Distribution Agreement, the Company (a) agreed to issue and sell to the Investor up to \$5,000,000 of shares of the Company’s common stock, par value \$0.0001 per share (the “Common Stock”) in tranches of equity, based upon a specified discount to the market price of the Common Stock, calculated over the five trading days following notice by the Company of an election to sell shares; and (b) issued to the Investor a warrant (the “Warrant”) to purchase 4,027,386 shares of Common Stock at the exercise price per share of \$0.29. The Warrant is not part of the commitment shares issued by the company to the investor. The investor must purchase the shares underlying the Warrant. The Warrant price was determined based upon the highest Bid price on the day of the closing of the agreement.

In connection with the Standby Equity Distribution Agreement, the Company entered into a Registration Rights Agreement with the Investor (the “Registration Rights Agreement”) pursuant to which the Company agreed to register for resale the shares of Common Stock that may be purchased by the Investor pursuant to the Standby Equity Distribution Agreement, the shares of Common Stock issuable upon exercise of the Warrant and 2,000,000 shares of Common Stock (the “Commitment Shares”) issued to the Investor as a commitment fee pursuant to the terms of the Standby Equity Distribution Agreement. The commitment fee is recorded by decreasing additional paid in capital.

Financing from this transaction will be used by the Company for the continued development of its current technologies, commercialization of same, the acquisition of new technologies and for general corporate expenses.

The Company filed the details of this transaction on Form 8-K with the Commission on October 14, 2008.

As of the date of this filing the company has not utilized any of the funds available under the Standby Equity Distribution Agreement.

Genetic Immunity

On February 23, 2009 the Company entered into a consultation agreement with Genetic Immunity, a Hungarian biotechnology research and development company working on immune amplification nanomedicine products, including a HIV vaccine currently in Phase 2 clinical trials.

According to the terms of the agreement PDV will provide Genetic Immunity business development expertise, will facilitate the publication, via internationally distributed press releases, of Genetic Immunity’s past, present and future news items, and will advise Genetic Immunity on going public in the United States based on Power of the Dream Ventures’ own experience in achieving public states.

In addition, PDV was granted rights to acquire equity in Genetic Immunity in one or several tranches for total consideration of USD \$10 million in exchange for 20% equity in the Company, if all options are exercised.

NOTE 1 - GENERAL INFORMATION (Continued)

Exact terms of this equity purchase option are: PDV is to acquire 2% of the Company via a USD 1,000,000 investment by April 30, 2009 in exchange for 72 units of the Genetic Immunity's Class B stock; Company is to acquire an additional 2% of the Genetic Immunity via a USD 1,000,000 investment by August 30, 2009 in exchange for 72 units of the Genetic Immunity's Class B stock. PDV is also granted an option to acquire an additional 16% of the Genetic Immunity via an \$8,000,000 investment by February 20, 2010, in tranches or in whole, in exchange for 578 units of the Genetic Immunity's Class B stock. If the Company misses the first deadline of April 30, 2009 this agreement shall immediately terminate. If the Company completes the first investment but missed the second date of August 30, 2009 this agreement shall terminate, but the Company will retain the Class B units already acquired. Any portion of the optional 16% equity purchase that is not exercised and closed by February 23, 2010 shall terminate. The option was extended for an unlimited period.

As of the date of this report the Company has not yet acquired any equity in Genetic immunity but still intends to do so pending availability of sufficient capital. As a direct result of this intention the original agreement is still in effect.

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the accompanying condensed financial statements include all adjustments (consisting of normal recurring accruals) considered necessary to make the financial statements not misleading as of and for the period ended June 30, 2010 and for the period from April 26, 2006 (date of inception) to June 30, 2010. Operating results for the six month periods ended June 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010.

Going Concern and Management's Plan

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate the continuation of the Company as a going concern and assume realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses from operations since inception. Management anticipates incurring additional losses in 2010. Further, the Company may incur additional losses thereafter, depending on its ability to generate revenues from the licensing or sale of its technologies and products, or to enter into any or a sufficient number of joint ventures. The Company has minimal revenue to date. There is no assurance that the Company can successfully commercialize any of its technologies and products and realize any revenues therefrom. The Company's technologies and products have never been utilized on a large-scale commercial basis and there is no assurance that any of its technologies or products will receive market acceptance. There is no assurance that the Company can continue to identify and acquire new technologies.

NOTE 1 - GENERAL INFORMATION (Continued)

Since inception through June 30, 2010, the Company had an accumulated deficit of \$8,000,708 and net cash used in operations of \$2,093,877. However, management of the Company believes that the funding during 2010 private placement of the Company's common shares (See Note 8) together with the anticipated raising of additional capital will allow it to continue operations and execute its business plan.

Management believes the Company can raise adequate capital to keep the Company functioning through June 30, 2011. However, no assurance can be given that the Company can obtain additional working capital, or if obtained, that such funding will not cause substantial dilution to shareholders of the Company. If the Company is unable to raise additional funds, it may be forced to change or delay its contemplated marketing and business plan. Being a development stage company, the Company is subject to all the risks inherent in the establishment of a new enterprise and the marketing and manufacturing of a new product, many of which risks are beyond the control of the Company. All of the factors discussed above raise substantial doubt about the Company's ability to continue as a going concern.

These unaudited condensed consolidated financial statements do not include any adjustments relating to the recoverability of recorded asset amounts that might be necessary as a result of the above uncertainty.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in preparation of the consolidated financial statements are set out below.

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of PDV and its wholly-owned Hungarian subsidiary, Vidatech. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates:

The preparation of the financial statements in conformity with US GAAP requires management to make estimates, judgments and assumptions that affect amounts reported herein. Management believes that such estimates, judgments and assumptions are reasonable and appropriate. However, due to the inherent uncertainty involved, actual results may differ from those based upon management's judgments, estimates and assumptions. Critical accounting policies requiring the use of estimates are depreciation and amortization and share-based payments

Revenue Recognition:

Sales are recognized when there is evidence of a sales agreement, the delivery of the goods or services has occurred, the sales price is fixed or determinable and collectability is reasonably assured, generally upon shipment of product to customers and transfer of title under standard commercial terms. Sales are measured based on the net amount billed to a customer. Generally there are no formal customer acceptance requirements or further obligations. Customers do not have a general right of return on products shipped therefore no provisions are made for return.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Accounts Receivable and Allowance for Doubtful Accounts:

Accounts receivable are stated at current value, which approximates fair value. The Company does not require collateral for accounts receivable. Accounts receivable are reduced by an allowance for amounts that may be uncollectible in the future. This estimated allowance is determined by considering factors such as length of time accounts are past due, historical experience of write offs, and customers' financial condition.

Inventories:

Inventories are stated at the lower of cost, determined based on weighted average cost or market value. Inventories are reduced by an allowance for excess and obsolete inventories based on management's review of on-hand inventories compared to historical and estimated future sales and usage.

Fixed assets:

Fixed assets are stated at cost or fair value for impaired assets. Depreciation and amortization is computed principally by the straight-line method. Asset amortization charges are recorded for long lived assets. In the related periods, no asset impairment charges were accounted for.

Depreciation is recorded commencing the date the assets are placed in service and is calculated using the straight line basis over their estimated useful lives.

The estimated useful lives of the various classes of long-lived assets are approximately 3-7 years.

Pensions and Other Post-retirement Employee benefits:

In Hungary, pensions are guaranteed and paid by the government or by pension funds, therefore no pensions and other post-retirement employee benefit costs or liabilities are to be calculated and accounted by the Company.

Product warranty:

The Company accrues for warranty obligations for products sold based on management estimates, with support from sales, quality and legal functions, of the amount that eventually will be required to settle such obligations. At June 30, 2010, the Company had no warranty obligations in connection with the products sold.

Advertising costs:

Advertising and sales promotion expenses are expensed as incurred.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Research and development and Investment and Advances to Non-Consolidated Entities:

In accordance with ASC 730-10-25 “Accounting for Research and Development Costs,” all research and development (“R&D”) costs are expensed when they are incurred, unless they are reimbursed under specific contracts. Assets used in R&D activity, such as machinery, equipment, facilities and patents that have alternative future use either in R&D activities or otherwise are capitalized. In connection with investments and advances in development-stage technology entities in which the company owns or controls less than a 50% voting interest, (see Note 4) where repayment from such entity is based on the results of the research and development having future economic benefit, the investment and advances are accounted for as costs incurred by the Company as research and development in accordance with ASC 730-20-25.

Income taxes:

The Company accounts for income taxes in accordance with ASC 740-10-25, “Accounting for Income Taxes”. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Valuation allowances are provided against deferred tax assets to the extent that it is more likely than not that the deferred tax assets will not be realized.

Comprehensive Income (Loss):

ASC 220-10-25, “Accounting for Comprehensive Income,” establishes rules for reporting and disclosure of comprehensive income and its components (including revenues, expenses, gains and losses) in a full set of general-purpose financial statements. The items of other comprehensive income that are typically required to be disclosed are foreign currency items, minimum pension liability adjustments, and unrealized gains and losses on certain investments in debt and equity securities. Accumulated other comprehensive loss, at June 30, 2010 is \$266.

Translation of Foreign Currencies:

The U.S. dollar is the functional currency for all of the Company’s businesses, except its operations in Hungary. Foreign currency denominated assets and liabilities for this unit is translated into U.S. dollars based on exchange rates prevailing at the end of each period presented, and revenues and expenses are translated at average exchange rates during the period presented. The effects of foreign exchange gains and losses arising from these translations of assets and liabilities are included as a component of equity, under other comprehensive income.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loss per Share:

Under ASC 260-10-45, “Earnings Per Share”, basic loss per common share is computed by dividing the loss applicable to common stockholders by the weighted average number of common shares assumed to be outstanding during the period of computation. Diluted loss per common share is computed using the weighted average number of common shares and, if dilutive, potential common shares outstanding during the period. There were no common stock equivalents or potentially dilutive securities outstanding during the years ended June 30, 2010 and 2009, respectively. Accordingly, the weighted average number of common shares outstanding for the periods ended June 30, 2010 and 2009, respectively, is the same for purposes of computing both basic and diluted net income per share for such years.

Business Segment:

ASC 280-10-45, “Disclosures About Segments of an Enterprise and Related Information,” establishes standards for the way public enterprises report information about operating segments in annual consolidated financial statements and requires reporting of selected information about operating segments in interim financial statements regarding products and services, geographical areas and major customers. The Company has determined that under ASC 208-10-45, there are no operating segments since substantially all business operations, assets and liabilities are in Hungarian geographic segment.

Share-Based Payments:

In accordance with ASC 718-10 “Share-Based Payment” all forms of share-based payment (“SBP”) awards including shares issued under employee stock purchase plans, stock options, restricted stock and stock appreciation rights result in a cost that is measured at fair value on the awards’ grant date, based on the estimated number of awards that are expected to vest. As the Company did not issue any employee SBP, there is no compensation cost recognized in the accompanied consolidated financial statements.

The Company accounts for equity instruments issued to non-employees in accordance with the provisions of ASC 505-50, “Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services,” which requires that such equity instruments are recorded at their fair value on the measurement date. The measurement of stock-based compensation is subject to periodic adjustment as the underlying equity instrument vests. Non-employee stock-based compensation charges are amortized over the vesting period or period of performance of the services.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Accounting Pronouncements:

In April 2010, the FASB issued Update No. 2010-17 “Revenue Recognition—Milestone Method” (“2010-17”). The objective of this Update is to provide guidance on defining a milestone and determining when it may be appropriate to apply the milestone method of revenue recognition for research or development transactions. Research or development arrangements frequently include payment provisions whereby a portion or all of the consideration is contingent upon milestone events such as successful completion of phases in a drug study or achieving a specific result from the research or development efforts. An entity often recognizes these milestone payments as revenue in their entirety upon achieving the related milestone, commonly referred to as the milestone method. The amendments in this Update provide guidance on the criteria that should be met for determining whether the milestone method of revenue recognition is appropriate. A vendor can recognize consideration that is contingent upon achievement of a milestone in its entirety as revenue in the period in which the milestone is achieved only if the milestone meets all criteria to be considered substantive. The amendments in this Update are effective on a prospective basis for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. Early adoption is permitted.

In April 2010, the FASB issued Update No. 2010-13 “Compensation—Stock Compensation” (“2010-13”). The objective of this Update is to address the classification of an employee share-based payment award with an exercise price denominated in the currency of a market in which the underlying equity security trades. The amendments in this Update affect entities that issue employee share-based payment awards with an exercise price denominated in the currency of a market in which a substantial portion of the entity’s equity securities trades that differs from the functional currency of the employer entity or payroll currency of the employee. The amendments affect entities that have previously considered such awards to be liabilities because of their exercise price. The amendments clarify that a share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity’s equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, such an award should not be classified as a liability if it otherwise qualifies as equity. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. The Company is currently evaluating whether adoption of this standard will have a material impact on its financial position, results of operations or cash flows.

In February 2010, the FASB issued Update No. 2010-09 “Subsequent Events” (“2010-09”). The amendments remove the requirement for an SEC filer to disclose a date in both issued and revised financial statements. Additionally, the Board has clarified that if the financial statements have been revised, then an entity that is not an SEC filer should disclose both the date that the financial statements were issued or available to be issued and the date the revised financial statements were issued or available to be issued. All of the amendments in this Update are effective immediately.

In February 2010 the FASB issued Update No. 2010-08 “Technical Corrections to Various Topics” (“2010-08”). 2010-08 represents technical corrections to SEC paragraphs within various sections of the Codification. Management is currently evaluating whether these changes will have any material impact on its financial position, results of operations or cash flows.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In January 2010 the FASB issued Update No. 2010-06 “Fair Value Measurements and Disclosures—Improving Disclosures about Fair Value Measurements” (“2010-06”). 2010-06 requires new disclosures regarding significant transfers between Level 1 and Level 2 fair value measurements, and disclosures regarding purchases, sales, issuances and settlements, on a gross basis, for Level 3 fair value measurements. 2010-06 also calls for further disaggregation of all assets and liabilities based on line items shown in the statement of financial position. This amendment is effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years. The Company is currently evaluating whether adoption of this standard will have a material impact on its financial position, results of operations or cash flows.

In January 2010 the FASB issued Update No. 2010-05 “Compensation—Stock Compensation—Escrowed Share Arrangements and Presumption of Compensation” (“2010-05”). 2010-05 re-asserts that the Staff of the Securities Exchange Commission (the “SEC Staff”) has stated the presumption that for certain shareholders escrowed share represent a compensatory arrangement. 2010-05 further clarifies the criteria required to be met to establish a position different from the SEC Staff’s position. The Company does not believe this pronouncement will have any material impact on its financial position, results of operations or cash flows.

In January 2010 the FASB issued Update No. 2010-04 “Accounting for Various Topics—Technical Corrections to SEC Paragraphs” (“2010-04”). 2010-04 represents technical corrections to SEC paragraphs within various sections of the Codification. Management is currently evaluating whether these changes will have any material impact on its financial position, results of operations or cash flows.

In January 2010 the FASB issued Update No. 2010-02 “Accounting and Reporting for Decreases in Ownership of a Subsidiary—a Scope Clarification” (“2010-02”) an update of ASC 810 “Consolidation.” 2010-02 clarifies the scope of ASC 810 with respect to decreases in ownership in a subsidiary to those of a subsidiary or group of assets that are a business or nonprofit, a subsidiary that is transferred to an equity method investee or joint venture, and an exchange of a group of assets that constitutes a business or nonprofit activity to a non-controlling interest including an equity method investee or a joint venture. Management does not expect adoption of this standard to have any material impact on its financial position, results of operations or operating cash flows. Management does not intend to decrease its ownership in any of its wholly-owned subsidiaries.

In January 2010 the FASB issued Update No. 2010-01 “Accounting for Distributions to Shareholders with Components of Stock and Cash—a consensus of the FASB Emerging Issues Task Force” (“2010-03”) an update of ASC 505 “Equity.” 2010-03 clarifies the treatment of stock distributions as dividends to shareholders and their affect on the computation of earnings per shares. Management does not expect adoption of this standard to have any material impact on its financial position, results of operations or operating cash flows.

NOTE 4 - RESEARCH AND DEVELOPMENT ("R&D")

In August, 2008, the Company entered into an agreement with a Hungarian individual to establish FireLESS Kft (FireLESS). FireLESS's business is focused on acquiring the appropriate licenses and certificates to internationally market FireSAFE and will work with local and international fire agencies to test and establish usability baselines for FireSAFE. The Company is a minority shareholder in FireLESS with 30% voting rights, which operates under independent management.

In August, 2007, the Company entered into an agreement with two Hungarian individuals to establish In4 Kft ("in4). in4's business is focused on software development and information technology purposes. Originally the Company was a minority shareholder in in4 with 30% voting rights. In4 Ltd. operates under independent management.

In August, 2007, the Company also entered into a loan commitment agreement with in4. According to the agreement the Company has committed a loan of approximately \$271,000 to in4. The loan amount has been provided by May 31, 2009. In November of 2008 the Company transferred to in4 the entire loan amount, upon which the Company elected to covert the loan into an additional 10% equity in in4. As of January 15, 2009 the Company maintains a minority 40% equity in in4 Ltd. Since capitalization of the loan to equity, as of March 31, 2010 the Company has provided an additional \$333,000 loan to in4 which was converted into equity during the second quarter of 2010, along with an increase of the equity of in4 Ltd by a private investor. After capitalization of the loan, the Company has 38.5% equity in in4 Ltd.

Since the repayment of loans, advances and other investment is contingent on the results of the R&D of iGlue having future economic benefit, management has expensed the Company's investment in in4 and in FireLESS of approximately \$5,000 and \$900, respectively, and loans to in4 of approximately \$604,000 as R&D in the accompanying condensed consolidated statements of operations, in accordance with ASC 730-10-25 "Research and Development Arrangements".

NOTE 6 - NOTE PAYABLE

On April 10, 2007, in connection with reverse merger (See Note 1), the Company assumed a note payable of \$250,000 to a former stockholder, Mary Passalacqua originally with one year maturity at April 5, 2008. The note has been expanded by one year to April 5, 2009 with the same conditions. As such note payable was issued immediately prior to the reverse merger, such issuance was recorded as additional compensation by the Company prior to the reverse merger. Accordingly, such compensation is reflected in the accompanying consolidated balance sheet as the accumulated deficit of the Company, and will not be reflected in the Statement of operations, as such compensation expense was structured as an expense prior to the recapitalization.

In November, 2008 the Company settled \$35,000 from the outstanding liability, and in May of 2009 the Company settled another \$20,000 from the liability. The note payable bears interest at the prime rate (3.25% at June 30, 2010). Interest expense in connection with such note amounted to \$36,841 and \$33,998 for the year ended at June 30, 2010 and at December 31, 2009, respectively, and was accrued and included in accounts payable and accrued liabilities in the accompanying consolidated balance sheet.

NOTE 7 - CAPITAL LEASES PAYABLE

In August, 2007, the Company entered into capital lease agreements on 3 vehicles for management purposes. The maturity of the lease is 60 months and is denominated in CHF. Instalments and interest is due on a monthly basis. In December, 2007, the Company entered into additional capital lease agreements on 2 vehicles for management purposes. The maturity of the lease is 72 months and is denominated in CHF. Installments and interest is due on a monthly basis.

In June 2007, the Company entered into five consulting agreements with five consultants for 12 to 24 month periods. According to the agreements the consultants will provide general business consulting services. As consideration for such services, the Company issued an aggregate of 1,375,000 shares of the Company's common stock. These share issuances were recorded at \$0.34 per share in the total amount of \$467,501 in accordance with measurement date principles prescribed under ASC 505-50 and ASC 718-10. The Company is amortizing the fair value of the shares over the term of the agreement to stock-based compensation expense, which amounted to \$0 for the period ended June 30, 2010, respectively and \$467,501 for the period from April 26, 2006 (date of inception) to June 30, 2010, in accordance with ASC 505-50 and ASC 718-10.

In April 2007, the Company entered into an agreement with two professionals for legal services. According to the agreement the professionals provided legal services to the Company in 2007. In connection with these services, the Company issued to them 500,000 shares of the Company's common stock. These share issuances were recorded at \$0.34 per share in the total amount of \$170,000 and the related expense was recorded under general administration.

In connection with the ITA (See Note 4), the Company issued 100,000 shares of the Company's common stock to the Inventors. These shares issuance were recorded at fair value of \$0.34 per share in the total amount of \$34,000. The cost of the related invention was recorded as research and development expense.

Other agreements

On October 8, 2008, Power of the Dream Ventures, Inc. (the "Company") entered into a Standby Equity Distribution Agreement (the "Standby Equity Distribution Agreement") with YA Global Investments, L.P. (the "Investor"). Pursuant to the terms of the Standby Equity Distribution Agreement, the Company (a) agreed to issue and sell to the Investor up to \$5,000,000 of shares of the Company's common stock, par value \$0.0001 per share (the "Common Stock") in tranches of equity, based upon a 7% discount to the market price of the Common Stock, calculated over the five trading days following notice by the Company of an election to sell shares; and (b) issued to the Investor a warrant (the "Warrant") to purchase 4,027,386 shares of Common Stock at the exercise price per share of \$0.29. The Warrant is not part of the commitment shares issued by the company to the investor.

The investor must purchase the shares underlying the Warrant. The Warrant price was determined based upon the highest Bid price on the day of the closing of the agreement. The YA Global is required to exercise the warrant upon notice by PDV of an election to have the warrants exercised at a fix price of \$0.29 per common stock.

In connection with the Standby Equity Distribution Agreement, the Company entered into a Registration Rights Agreement with the Investor (the "Registration Rights Agreement") pursuant to which the Company agreed to register for resale the shares of Common Stock that may be purchased by the Investor pursuant to the Standby Equity Distribution Agreement, the shares of Common Stock issuable upon exercise of the Warrant and 2,000,000 shares of Common Stock (the "Commitment Shares") issued to the Investor as a commitment fee pursuant to the terms of the Standby Equity Distribution Agreement. The 2,000,000 shares issued as a commitment fee were valued at \$0.4 per share or \$800,000 based on the fair value at issuance date. The \$800,000 commitment fee has been debited against additional paid in capital in accordance with the provisions of Staff Accounting Bulletin Topic 5A.

There is no limit to the amount of each advance. We are not obligated to utilize any of the \$5.0 million available under the SEDA and there are no minimum commitments or minimum use penalties. Based upon our outstanding shares of common stock, and warrants to purchase common stock as of December 31, 2008, there is no limit on the number of share we may issue without stockholder approval. Based on the price of our stock at June 30, 2010, the maximum number of shares that could be sold under this agreement is approximately 62,500,000 shares.

On May 17, 2008 the Company entered into an agreement with Wakabayashi Fund LLC in order to arrange financing for working capital as an intermediary. Wakabayashi Fund LLC provided capital funding services including serving as an investment banking liaison and acted as capital consultant for a six month period. The Company issued 111,111 shares of restricted common stock upfront at \$1.35 per share, the market price of the stock on the commitment date of the agreement. Additionally, the Company agreed to pay for the capital funding services 7% success fee. These share issuances were recorded at \$1.35 per share in the total amount of \$150,000 in accordance with measurement date principles prescribed under ASC 505-50. The Company is amortizing the fair value of the shares in general and administration expenses over the term of the agreement to stock-based compensation expense, which amounted to \$0 for the period ended June 30, 2010 and \$150,000 for the period from April 26, 2006 (date of inception) to June 30, 2010, in accordance with ASC 505-50. As of November 17, 2008 this agreement has been terminated without any funds raised.

On April 18, 2008 the Company entered an agreement with RedChip Companies Inc. and Partner Media4Equity Inc. for an investor relationship program for a period of 12 months. The Company secured and delivered 306,570 restricted common shares with a market price of \$0.70 for a 12 months period in connection with RedChip investor relationship services. The compensation for Media4Equity services was the delivery of 1,500,000 restricted common shares. These share issuances were recorded at \$0.75 per share, the market price of the stock on the commitment date of the agreement, for a total amount of \$1,125,000 in accordance with measurement date principles prescribed under ASC 505-50. The Company is amortizing the fair value of the shares in general and administration expenses over the term of the agreement to stock-based compensation expense, which amounted to \$0 for the periods ended June 30, 2010 and December 31, 2009, respectively and \$1,339,599 for the period from April 26, 2006 (date of inception) to June 30, 2010, in accordance with ASC 505-50.

NOTE 9 - SUBSEQUENT EVENTS

ITEM 2 – PLAN OF OPERATION

Overview

We were incorporated in Delaware on August 17, 2006, under the name Tia V, Inc. Since inception, and prior to our acquisition of Vidatech on April 10, 2007, we were engaged solely in organizational efforts and obtaining initial financing. Our sole business purpose was to identify, evaluate and complete a business combination with an operating company.

On April 10, 2007, we completed our acquisition of Vidatech, Kft (also know as Vidatech Technological Research and Development LLC) a limited liability company formed under the laws of the Republic of Hungary. Vidatech is a company formed for the purpose of investing in, acquiring, developing, licensing, and commercializing technologies developed in Hungary. In furtherance of its business, Vidatech provides research and development services to the companies from which it acquires technologies or participation interests in such technologies. Prior to December 31, 2007, Vidatech was primarily focused on organizational and capital raising activities. Through June 30, 2010, we have had only limited operations and acquired rights to eleven technologies, TothTelescope, RiverPower, revolutionary desalination technology based on cavitation, H2OGas for the mixing of water and gasoline for use in internal combustion engines, and the Kalmar inventions (FireSAFE, technology for utilizing communal waste as a concrete additive, technology for repairing potholes with the use of recycled plastics, PVC shielded electric cable recycling technology, a biodegradable deicing liquid, and technology for the neutralization of red-mud, a toxic byproduct of the aluminum/bauxite industry) and an equity interest in ‘in4 Kft’, a company formed to develop next generation semantic search and content organizer technology. All of these technologies are still in the development stage (see Note 4). As of June 30, 2010, the Company has only realized limited revenues from the TothTelescope project and has not realized any revenues from the other inventions.

We now operate in Hungary through our wholly owned subsidiary, Vidatech Kft., a Hungarian company. Our office in Hungary is located at 1095 Budapest, Soroksari ut 94-96, Hungary.

Description of our Business and Properties

Through Vidatech, we aim to provide pro-active support for idea, research, start-up and expansion-stage technology companies having rights to technologies or intellectual properties which we believe to be potentially commercially viable, by offering a range of services designed to encourage and protect the continuing development and eventual commercialization of those technologies.

Our focus will be on technologies and technology companies based in the Republic of Hungary. We believe that the availability of technologies for purchase or license, coupled with the lack of sufficient investment capital for such technologies in Hungary, present us with an opportunity to acquire technologies on terms and conditions that we deem advantageous.

Our strategy is to acquire majority interests in technologies through, among other things, direct investment in start-up and expansion stage technologies and technology companies; cooperative research and development agreements with such companies; direct licensing agreements; joint venture arrangements; or, direct acquisition of technologies and intellectual properties.

ITEM 2 – PLAN OF OPERATION (Continued)

We also intend to provide services to assist in:

- The design of, research of, building of and testing of prototypes;
- facilitation of preparation of filing and prosecution of patent applications with Hungarian patent attorneys;
- business structuring;
- financing of research and development activities;
- the exposure of the technology to international markets; and
- the commercialization and/or sale of the subject technology.

We expect to obtain a majority participation interest in any given transaction involving idea, research, seed, start-up, early stage, technologies.

Capital Resources and Liquidity

In June 2007, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 2,250,000 shares of its common stock at \$0.34 for aggregate proceeds of \$765,000.

Subsequently, on October 12, 2007, we completed a second private placement under Regulation S of the Securities Act of 1933, as amended, pursuant to which the Company sold 104,000 shares of its common stock at \$2.50 per share for aggregate proceeds of \$260,000.

In January 2008, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 32,500 shares of its common stock at \$3.25 per share for aggregate proceeds of \$105,625.

In October 2008, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 2,500,000 shares of its common stock at \$0.4 per share for aggregate proceeds of \$1,000,000.

In November 2009, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 175,000 shares of its common stock at \$0.16 and 111,110 shares of its common stock at \$0.20 per share for aggregate proceeds of \$50,222.

During the first half of 2010, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 1,470,000 shares of its common stock at \$0.10 for aggregate proceeds of \$147,000, and sold 62,500 shares of its common stock at \$0.08 for a proceeds of \$5,000.

In February 2010, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 65,000 shares of its common stock at \$0.12 for aggregate proceeds of \$7,701.

ITEM 2 – PLAN OF OPERATION (Continued)

On May 3, 2010, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 95,000 shares of its common stock at \$0.10 for aggregate proceeds of \$9,500.

On June 30, 2010, the Company had a deficit in working capital of \$455,530.

FireSAFE technology

On August 20, 2008, the Company licensed its FireSAFE technology to a group of Hungarian investors for a license acquisition fee of HUF 20,000,000 (approximately \$120,000). A new company called FireLESS Ltd. was established and given commercialization license. The Company received 30% equity in FireLESS Ltd.

The new company will focus on acquiring the appropriate licenses and certificates to internationally market FireSAFE and will work with local and international fire agencies to test and establish usability baselines for FireSAFE.

To further these goals on October 20, 2008 The Company filed a PCT patent application to protect FireSAFE internationally.

FireSAFE is an environmentally friendly, biodegradable liquid designed to prevent, and if necessary extinguish natural fires that are exceedingly hard, or impossible to contain with water or other fire-fighting solutions. This category includes forest, bush and other natural fires. FireSAFE reaches the heart of the fire, coating all surfaces with a crystalline layer that hardens when exposed to heat. The layer thus formed is capable of withstanding heat as high as 1,100 degrees centigrade, enough to stop the most fearsome forest fires. Following use (containment of the fire) the biodegradable active ingredient will decompose in approximately four months. FireSAFE can also be used as a preventive solution, both in the wild and in treating lumber. During fire season those areas that are the most likely to be burnt can be sprayed with the solution as a preventive measure. Lumber used in construction can also be treated with FireSAFE to increase its fire resistance factor. FireSAFE can be manufactured anywhere on the planet with ease as all its ingredients are widely and cheaply available.

As of June 30, 2010 we have completed an independent technology testing and verification process with FireLess Ltd. and local fire departments. Data gathered in these extensive tests is being analysed in cooperation to determine the best course of action for FireSafe on a going forward basis. We expect to complete this data analysis in the third quarter of 2010 and report on results when they become available.

ITEM 2 – PLAN OF OPERATION (Continued)

Financing from Yorkville SEDA

On October 8, 2008, Power of the Dream Ventures, Inc. (the “Company”) entered into a Standby Equity Distribution Agreement (the “Standby Equity Distribution Agreement”) with YA Global Investments, L.P. (the “Investor”). Pursuant to the terms of the Standby Equity Distribution Agreement, the Company (a) agreed to issue and sell to the Investor up to \$5,000,000 of shares of the Company’s common stock, par value \$0.0001 per share (the “Common Stock”) in tranches of equity, based upon a specified discount to the market price of the Common Stock, calculated over the five trading days following notice by the Company of an election to sell shares; and (b) issued to the Investor a warrant (the “Warrant”) to purchase 4,027,386 shares of Common Stock at the exercise price per share of \$0.29.

In connection with the Standby Equity Distribution Agreement, the Company entered into a Registration Rights Agreement with the Investor (the “Registration Rights Agreement”) pursuant to which the Company agreed to register for resale the shares of Common Stock that may be purchased by the Investor pursuant to the Standby Equity Distribution Agreement, the shares of Common Stock issuable upon exercise of the Warrant and 2,000,000 shares of Common Stock (the “Commitment Shares”) issued to the Investor as a commitment fee pursuant to the terms of the Standby Equity Distribution Agreement.

The Company filed the details of this transaction on Form 8-K with the Commission on October 14, 2008.

As of June 30, 2010 we have not utilized any portion of this agreement as we feel its use would cause significant dilution to our shareholders if it were executed at the Company’s depressed shares price. We continue to review our options as to using this agreement in the future, if and when it would serve the best interest of the company and our shareholders.

Other than the recently completed private placement all of our funding to date has been generated from loans from our officers and directors. During the next twelve months we anticipate that we will have sufficient funds to proceed only with basic administrative operations and incremental operations with respect to our investment in in4 Ltd, the the continued development of our RiverPower technology.

All other technologies in our portfolio are currently on hold until we realize revenue from our investment in in4 Ltd or RiverPower. As of June 30, 2010, the Company has only realized limited revenues from the TothTelescope project, which has been discontinued, and has not realized any revenues from the other inventions. In addition we only have limited funds available to continue acquiring and developing the diverse number of technologies available to us, to continue research and development efforts with respect to our current technologies and to fully implement our business plan. If we do not obtain the funds necessary for us to continue our business activities we may need to curtail or cease our operations until such time as we have sufficient funds.

We currently have no other arrangements for such financings and can give you no assurance that such financings will be available to us when required or on terms that we deem acceptable or at all.

ITEM 2 – PLAN OF OPERATION (Continued)

Going Concern and Management's Plan

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate the continuation of the Company as a going concern and assume realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses from operations since inception. Management anticipates incurring additional losses in 2010. Further, the Company may incur additional losses thereafter, depending on its ability to generate revenues from the licensing or sale of its technologies and products, or to enter into any or a sufficient number of joint ventures. The Company has minimal revenue to date. There is no assurance that the Company can successfully commercialize any of its technologies and products and realize any revenues therefrom. The Company's technologies and products have never been utilized on a large-scale commercial basis and there is no assurance that any of its technologies or products will receive market acceptance. There is no assurance that the Company can continue to identify and acquire new technologies.

Since inception through June 30, 2010, the Company had an accumulated deficit of \$8,000,708 and net cash used in operations of \$2,093,877. However, management of the Company believes that the funding from private placements in 2010 of the Company's common shares (See Note 8) together with the anticipated raising of additional capital will allow them to continue operations and execute its business plan.

Management believes the Company can raise adequate capital to keep the Company functioning through June 30, 2011. However, no assurance can be given that the Company can obtain additional working capital, or if obtained, that such funding will not cause substantial dilution to shareholders of the Company. If the Company is unable to raise additional funds, it may be forced to change or delay its contemplated marketing and business plan. Being a development stage company, the Company is subject to all the risks inherent in the establishment of a new enterprise and the marketing and manufacturing of a new product, many of which risks are beyond the control of the Company. All of the factors discussed above raise substantial doubt about the Company's ability to continue as a going concern.

The unaudited condensed consolidated financial statements included in this form 10-Q do not include any adjustments relating to the recoverability of recorded asset amounts that might be necessary as a result of the above uncertainty.

ITEM 2 – PLAN OF OPERATION (Continued)

Critical Accounting Estimates and Policies

This discussion and analysis of our financial condition and results of operations are based upon our condensed consolidated financial statements that have been prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). This preparation requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. US GAAP provides the framework from which to make these estimates, assumption and disclosures. We chose accounting policies within US GAAP that management believes are appropriate to accurately and fairly report our operating results and financial position in a consistent manner. Our management regularly assesses these policies in light of current and forecasted economic conditions. Accounting policies that our management believes to be critical to understanding the results of our operations and the effect of the more significant judgments and estimates used in the preparation of the condensed consolidated financial statements are as those described in the Form 8-K of the Company filed on April 16, 2007 for the year ended December 31, 2006 with the SEC and as amended on August 30, 2007 and as follows.

Research and Development:

In accordance with ASC 730-10-25, "Accounting for Research and Development Costs," all research and development ("R&D") costs are expensed when they are incurred, unless they are reimbursed under specific contracts. Assets used in R&D activity, such as machinery, equipment, facilities and patents that have alternative future use either in R&D activities or otherwise are capitalized. In connection with the investment and advances in subsidiary, associate or other entity where repayment from such subsidiary, associate or entity solely on the results of the research and development having future economic benefit, the investment and advance is accounted for as costs incurred by the Company as research and development in accordance with ASC 730-20-25 "Research and Development Arrangements".

Share-Based Payment:

In accordance with ASC 718-10 "Share-Based Payment" all forms of share-based payment ("SBP") awards including shares issued under employee stock purchase plans, stock options, restricted stock and stock appreciation rights result in a cost that is measured at fair value on the awards' grant date, based on the estimated number of awards that are expected to vest.

The Company accounts for equity instruments issued to non-employees in accordance with the provisions of ASC 505-50, "Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services," which requires that such equity instruments are recorded at their fair value on the measurement date. The measurement of stock-based compensation is subject to periodic adjustment as the underlying equity instrument vests. Non-employee stock-based compensation charges are amortized over the vesting period or period of performance of the services.

Recent Accounting Pronouncements

In April 2010, the FASB issued Update No. 2010-17 “Revenue Recognition—Milestone Method” (“2010-17”). The objective of this Update is to provide guidance on defining a milestone and determining when it may be appropriate to apply the milestone method of revenue recognition for research or development transactions. Research or development arrangements frequently include payment provisions whereby a portion or all of the consideration is contingent upon milestone events such as successful completion of phases in a drug study or achieving a specific result from the research or development efforts. An entity often recognizes these milestone payments as revenue in their entirety upon achieving the related milestone, commonly referred to as the milestone method. The amendments in this Update provide guidance on the criteria that should be met for determining whether the milestone method of revenue recognition is appropriate. A vendor can recognize consideration that is contingent upon achievement of a milestone in its entirety as revenue in the period in which the milestone is achieved only if the milestone meets all criteria to be considered substantive. The amendments in this Update are effective on a prospective basis for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. Early adoption is permitted.

In April 2010, the FASB issued Update No. 2010-13 “Compensation—Stock Compensation” (“2010-13”). The objective of this Update is to address the classification of an employee share-based payment award with an exercise price denominated in the currency of a market in which the underlying equity security trades. The amendments in this Update affect entities that issue employee share-based payment awards with an exercise price denominated in the currency of a market in which a substantial portion of the entity’s equity securities trades that differs from the functional currency of the employer entity or payroll currency of the employee. The amendments affect entities that have previously considered such awards to be liabilities because of their exercise price. The amendments clarify that a share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity’s equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, such an award should not be classified as a liability if it otherwise qualifies as equity. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. The Company is currently evaluating whether adoption of this standard will have a material impact on its financial position, results of operations or cash flows.

In February 2010, the FASB issued Update No. 2010-09 “Subsequent Events” (“2010-09”). The amendments remove the requirement for an SEC filer to disclose a date in both issued and revised financial statements. Additionally, the Board has clarified that if the financial statements have been revised, then an entity that is not an SEC filer should disclose both the date that the financial statements were issued or available to be issued and the date the revised financial statements were issued or available to be issued. All of the amendments in this Update are effective immediately.

In February 2010 the FASB issued Update No. 2010-08 “Technical Corrections to Various Topics” (“2010-08”). 2010-08 represents technical corrections to SEC paragraphs within various sections of the Codification. Management is currently evaluating whether these changes will have any material impact on its financial position, results of operations or cash flows.

ITEM 2 – PLAN OF OPERATION (Continued)

In January 2010 the FASB issued Update No. 2010-06 “Fair Value Measurements and Disclosures—Improving Disclosures about Fair Value Measurements” (“2010-06”). 2010-06 requires new disclosures regarding significant transfers between Level 1 and Level 2 fair value measurements, and disclosures regarding purchases, sales, issuances and settlements, on a gross basis, for Level 3 fair value measurements. 2010-06 also calls for further disaggregation of all assets and liabilities based on line items shown in the statement of financial position. This amendment is effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years. The Company is currently evaluating whether adoption of this standard will have a material impact on its financial position, results of operations or cash flows.

In January 2010 the FASB issued Update No. 2010-05 “Compensation—Stock Compensation—Escrowed Share Arrangements and Presumption of Compensation” (“2010-05”). 2010-05 re-asserts that the Staff of the Securities Exchange Commission (the “SEC Staff”) has stated the presumption that for certain shareholders escrowed share represent a compensatory arrangement. 2010-05 further clarifies the criteria required to be met to establish a position different from the SEC Staff’s position. The Company does not believe this pronouncement will have any material impact on its financial position, results of operations or cash flows.

In January 2010 the FASB issued Update No. 2010-04 “Accounting for Various Topics—Technical Corrections to SEC Paragraphs” (“2010-04”). 2010-04 represents technical corrections to SEC paragraphs within various sections of the Codification. Management is currently evaluating whether these changes will have any material impact on its financial position, results of operations or cash flows.

In January 2010 the FASB issued Update No. 2010-02 “Accounting and Reporting for Decreases in Ownership of a Subsidiary—a Scope Clarification” (“2010-02”) an update of ASC 810 “Consolidation.” 2010-02 clarifies the scope of ASC 810 with respect to decreases in ownership in a subsidiary to those of a subsidiary or group of assets that are a business or nonprofit, a subsidiary that is transferred to an equity method investee or joint venture, and an exchange of a group of assets that constitutes a business or nonprofit activity to a non-controlling interest including an equity method investee or a joint venture. Management does not expect adoption of this standard to have any material impact on its financial position, results of operations or operating cash flows. Management does not intend to decrease its ownership in any of its wholly-owned subsidiaries.

In January 2010 the FASB issued Update No. 2010-01 “Accounting for Distributions to Shareholders with Components of Stock and Cash—a consensus of the FASB Emerging Issues Task Force” (“2010-03”) an update of ASC 505 “Equity.” 2010-03 clarifies the treatment of stock distributions as dividends to shareholders and their affect on the computation of earnings per shares. Management does not expect adoption of this standard to have any material impact on its financial position, results of operations or operating cash flows.

ITEM 2 – PLAN OF OPERATION (Continued)

Results of Operations

Six Months Period Ended June 30, 2010 compared to Six Months Period Ended June 30, 2009

Revenue

For the six months ended June 30, 2010 and 2009, we had no revenues.

General, selling and administrative expenses

For the six months ended June 30, 2010 general, selling and administrative expenses were \$117,193 as compared to \$733,281 for the six months ended June 30, 2009. The decrease in general, selling and administrative expenses are attributable to stock based payments and consulting expenses.

INFLATION AND FOREIGN CURRENCY

We maintain our books in local currency: US Dollars for the parent holding company in the United States of America and Hungarian Forint for Vidatech in Hungary.

Our operations are conducted primary outside of the United States through our wholly owned subsidiary. As a result, fluctuations in currency exchange rates may significantly affect our sales, profitability and financial position when the foreign currencies, primarily the Hungarian Forint, of its international operations are translated into U.S. dollars for financial reporting. In additional, we are also subject to currency fluctuation risk with respect to certain foreign currency denominated receivables and payables. Although we cannot predict the extent to which currency fluctuations may or will affect our business and financial position, there is a risk that such fluctuations will have an adverse impact on our sales, profits and financial position. Because differing portions of our revenues and costs are denominated in foreign currency, movements could impact our margins by, for example, decreasing our foreign revenues when the dollar strengthens and not correspondingly decreasing our expenses. We do not currently hedge our currency exposure. In the future, we may engage in hedging transactions to mitigate foreign exchange risk.

The translation of our subsidiary's Forint denominated balance sheets into U.S. dollars, as of June 30, 2010, has been affected by the strenghtening of the U.S. dollar against the Hungarian Forint from 187.7 HUF/USD as of December 31, 2009, to 232.77 HUF/USD as of June 30, 2010, an approximate 24% increase in value. The average Hungarian Forint/U.S. dollar exchange rates used for the translation of the subsidiaries forint denominated statements of operations into U.S. dollars, for the six months ended June 30, 2010 and 2009 were 207.76 and 200.19, respectively.

ITEM 3 – CONTROLS AND PROCEDURES

As indicated in the certifications in Exhibit 31 of this report, the Corporation's chief executive officer, principal financial officer and principal accounting officer have evaluated the Corporation's disclosure controls and procedures as of June 30, 2010. Based on that evaluation, these officers have concluded that the Company's disclosure controls and procedures are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to them in a manner that allows for timely decisions regarding required disclosures and are effective in ensuring that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. There were no changes during the Company's last fiscal quarter that materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1 – LEGAL PROCEEDINGS

On May 12, 2009 we presented with a court order for a hearing, initiated by Janos Salca, inventor of our RiverPower technology. In the court documents made available to us Mr. Salca alleges that at the signing of our Invention Transfer Agreement, dated May 24, 2006 we intentionally mislead him as to our intent to develop his technology. On June 22, 2009 our Legal Counsel attended the court hearing on the inventor's motion to null the invention transfer agreement. At this hearing the judge asked us to submit documentation showing our continued development of our RiverPower technology as proof that we are in fact working toward a commercial product as opposed to the claim of the inventor that we are not. As per this ruling our legal counsel submitted all required documents to the court. At the second hearing on this issue in January of 2010, the judge requested that we supply him with proof, in the form of receipts, the amount we have expended on developing RiverPower. The judge has also requested Janos Salca to withdraw his petition and come to an agreement with us. As of June 30, 2010 we have submitted all required proof on our financial expenditures. To this date we have not been approached by Janos Salca to find a mutually amicable solution. The Judge has set the final hearing on this issue to be conducted in September of 2010.

We believe the claim brought forth by Mr. Salca to be completely without merit. We have been diligently, although at a much slower pace than originally anticipated, pursuing development of RiverPower. We anticipated having a full scale prototype available for river testing in the first half of 2010, pending completion of technology optimisation, and the securing of required licenses and permits. This timeframe has now been pushed back to the end of this meritless trial. In addition, we are also continuing development of the associated slow rpm, 50Hz synchronous generator, which is now available for testing as a working prototype. Again we are holding off on any further action until a favourable verdict is issued on our behalf. In addition, we have also received the second round of testing results from VITUKI, the independent agency we have commissioned for the testing of RiverPower.

It is our opinion that the baseless case filed by Mr. Salca will be dismissed as one without merit. We do not foresee it having any effect on our continued development RiverPower. However we cannot guarantee that the final verdict will be in our favor. As such we have discontinued all further work until the verdict is announced. We also cannot guarantee that this technology will ever be commercialised if at any phase of its development we learn that the power output anticipated can not be achieved and RiverPower cannot provide an economical solution for power generation.

ITEM 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the first half of 2010, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 1,470,000 shares of its common stock at \$0.10 for aggregate proceeds of \$147,000, and sold 62,500 shares of its common stock at \$0.08 for a proceeds of \$5,000.

During the second quarter of 2010, the Company entered into a restricted stock agreement with Szilvia Toth, the Chief Accounting Officer of the Company. As part of the agreement Ms. Toth was granted 100,000 shares of restricted common stock, of which 25,000 shares will vest quarterly, at the end of each quarter, so long as Ms. Toth is employed by the Company.

During the second quarter of 2010, the Company entered into a restricted stock agreement with Imre Eotvos, the Technology Assistant of the Company. As part of the agreement Mr. Eotvos was granted 120,000 shares of restricted common stock, which will vest on equal installments of 30,000 shares quarterly, at the end of each quarter, so long as Mr. Eotvos is employed by the Company.

During the second quarter of 2010, the Company entered into a restricted stock agreement with Daniel Kun, Jr., who is to serve as Secretary and Vice President of the company on a going forward basis. As part of the agreement Mr. Kun was granted 120,000 shares of restricted common stock, which will vest on equal installments of 30,000 shares quarterly, at the end of each quarter, so long as Mr. Kun is employed by the Company.

During the second quarter of 2010, the Company entered into a restricted stock agreement with Gene Guhne, who is to serve as Director of the company on a going forward basis. As part of the agreement Mr. Guhne was granted 100,000 shares of restricted common stock, which will vest on equal installments of 25,000 shares quarterly, at the end of each quarter, so long as Mr. Guhne is employed by the Company.

As consideration for the above services, the Company issued an aggregate of 540,000 shares of the Company's common stock. These share issuances were recorded at \$0.1 per share in the total amount of \$54,000 in accordance with measurement date principles prescribed under FAS 123 (R).

In November 2009, pursuant to a private placement under Regulation S of the Securities Act of 1933, as amended, the Company sold 175,000 shares of its common stock at \$0.16 and 111,110 shares of its common stock at \$0.20 per share for aggregate proceeds of \$50,222.

ITEM 2 – UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS (Continued)

In April 2009, the Company entered into an agreement with two professionals for consulting services. According to the agreement the professionals provided consulting services to the Company in 2009. In connection with these services, the Company issued to them 250,000 shares of the Company's common stock. These share issuances were recorded at \$0.4 per share in the total amount of \$100,000 and the related expense was recorded under general administration.

On February 5, 2009, the Company entered into a restricted stock agreement with Ildiko Rozsa, who is to serve as the Chief Financial Officer of the Company. As part of the agreement Ms. Rozsa was granted 120,000 shares of the Company's restricted common stock of which 30,000 shares will vest quarterly, at the end of each quarter, so long as Ms. Rozsa is employed by the Company.

On February 5, 2009, the Company entered into a restricted stock agreement with Szilvia Toth, the Chief Accounting Officer of the Company. As part of the agreement Ms. Toth was granted 120,000 shares of restricted common stock, of which 30,000 shares will vest quarterly, at the end of each quarter, so long as Ms. Toth is employed by the Company.

On February 5, 2009, the Company entered into a restricted stock agreement with Mihaly Zala, the Chief Technology Officer of the Company. As part of the agreement Mr. Zala was granted 120,000 shares of restricted common stock, which will vest on equal installments of 30,000 shares quarterly, at the end of each quarter, so long as Mr. Zala is employed by the Company. As of July 15, 2009 Mr. Zala is no longer employed by the Company, therefore 60,000 shares of the 120,000 granted to him were cancelled and returned to the authorized and unissued stock of the company.

On February 5, 2009, the Company entered into a restricted stock agreement with Imre Eotvos, the Technology Assistant of the Company. As part of the agreement Mr. Eotvos was granted 200,000 shares of restricted common stock, which will vest on equal installments of 50,000 shares quarterly, at the end of each quarter, so long as Mr. Eotvos is employed by the Company.
